EDUCATION

Georgia State University – Atlanta, GA

Fall 2026

Bachelor of Science in Computer Science

Relevant coursework: Data Structures, Data Mining, Design and Analysis of Algorithms, Software Engineering

Awards: Laotian American Society, Let Us Make a Man, and Men Achieving and Developing Excellence Scholarships

SKILLS

Language: Python, Java, JavaScript, Dart, Kotlin, HTML/CSS, Bash, SQL | **Data Science:** NumPy, pandas, Matplotlib |

Framework: Spring Boot, Flutter, React, Node.js | **Tools:** Git, REST APIs, Jira, Docker, AWS S3, Jenkins, ArgoCD, Kubernetes, Postman, Stencil.js, Firebase | **Soft-Skills:** Interpersonal Communication, Leadership, Quick Problem Solving

EXPERIENCE

ADP (Automatic Data Processing):

May – August 2025

Full Stack Application Developer Intern

- Collaborated with cross-functional teams to design and implement next-generation ADP products, driving technical solutions for clients with over **1,000 Lyric HCM customers**
- Developed a full-stack app for ADP's new product, streamlining data processing and reducing manual work, leading to a projected **30%** productivity boost for clients, using **TypeScript, Java (Microservices)**, and **AWS S3**

Emory University:

June – August 2024

Network Engineer Intern

- Optimized and troubleshoot Emory University & Healthcare network serving over **50,000** students, faculty, and healthcare professionals, ensuring uninterrupted connectivity across academic and medical campuses
- Automated diagnostic health checks for **100+** core network devices (switches, routers, access points), decreasing manual workload by **80%** and enabling faster issue detection
- Diagnosed and resolved high-impact network performance issues, contributing to a **significant reduction in downtime and support tickets** during the internship period

TheCoderSchool:

May – June 2024

Python Code Instructor

- Taught complex coding concepts for students aged 5-18, enhancing their understanding of **Python**
- Designed clear, structured lesson plans to effectively give programming fundamentals, driving student engagement

Publix:

April 2021 – Present

Customer Service Cashier

- Delivered top-tier service to over 100+ customers daily, consistently maintaining a **95%+** satisfaction score in post-interaction surveys
- Utilized strong interpersonal communication skills through interactions with customers, managers, and co-workers

PROJECTS

Productivity App - Mobile App Development

Spring 2025

- Designed and implemented a multi-screen habit-tracking mobile app using Dart and Flutter
- Enabled users to log custom daily habits, view streak progress through charts, and receive notifications

Utilized: Dart, Flutter, Firebase, Figma (wireframing), GitHub

Personal Website - HeadstarterAI

Summer 2024

- Designed and developed a professional personal website to showcase technical skills, projects, and achievements using HTML, CSS, JavaScript, and responsive web design principles
- Deployed and maintained published the website using GitHub Pages ensuring ongoing updates and support.

Utilized: HTML, CSS, JavaScript, GitHub

Hello Squirrel App - CodePath Android App Project

Spring 2024

- Developed an app in Kotlin and XML that showcases a brief introduction of myself

Utilized: Kotlin, Java, JSON, XML, API, Mobile UI/UX design

LEADERSHIP

BuildATL - Full-Stack Developer

July – December 2024

- Managed and maintained the website's aesthetic and user interface using ensuring an appealing UX design

CodePath - Android App Developer

February – April 2024

- Managed projects with peers to mobilize unprecedented apps with refreshed features
